

## WHAT A KNOCKER DOES

FOR HIS TOWN

About the best illustration of what a knocker does for his home town is illustrated in a story told of a Michigan lumber camp. A graduate of one of the eastern colleges applied for work in the camp. He was told to get busy on one end of a cross-saw the other being operated by an old experienced lumberman. At first the work went beautifully but the end of the second day the young man began to get very, very weary. Suddenly the old man stopped the saw and spat. "Sonny," he said, "I don't mind yer ridin' on this saw, but if it's all the same to you I wish you'd keep yer feet off the ground."

The town knocker is in exactly the position of the young man. The loyal citizens of the town will good-naturedly carry him along as long as he keeps still and does nothing. But when he starts knocking and discourages every worthy movement, then he is too much of a drag and the worm is bound to turn.

By the Governor of the State of Utah  
A PROCLAMATION

A situation which vitally affects the economic and health interests of the people of Utah has been called to the attention of the Executive in a report from the Commissioner of Agriculture. Summarized the following facts are cited:

The per capita consumption of milk, butter, cheese, and other dairy products in Utah is approximately only seventy per cent of the per capita consumption in the nation, including the southern states, where the use of these products is very limited. Of the relatively small amount we do consume in Utah we import from other states about sixteen percent. In view of the favorable natural conditions for the production of dairy products in this state we should be large exporters instead of importers of dairy products.

Considered from a physiological standpoint, the fostering of greater production of dairy products is even more important to the public weal. Surgeon General Hugh S. Cummings, Chief of the U. S. Public Health Service, is credited with the statement that every growing child should consume a quart of milk a day. Statistics indicate that Utah is one of the four of the 48 states reporting not more than 50 per cent of the school children as regular consumers of milk. A survey of school children of one of the largest cities of the country discloses the fact that those who drink milk liberally complete the eight grades of school two years younger than those who do not drink milk.

Dr. T. B. Beatty, Secretary of the State Board of Health and Vital Statistics, declares that "Milk is the most valuable of foods, containing all of the essential to normal growth and health, and there is no substitute."

Predicated upon the foregoing facts, THEREFORE, it is respectfully recommended that all parents and those responsible for feeding growing children, provide and encourage them to drink a liberal amount of milk, and that Surgeon General Cummings' suggestion of a quart a day be considered standard.

It is further recommended that all schools of the state, from the grade schools to the Agricultural College and University of Utah, unite in a thorough and continued effort to teach the necessity and encourage the use of dairy products and to assist in vitalizing this industry throughout the state.

Many of the societies and clubs whose objects are civic progress have made splendid efforts to increase the use of milk, particularly among the poor. Grateful for these endeavors toward more intelligent methods, it is my desire to see a continuance of such undertakings.

Much good can also be done by the Churches. With their cooperation in this cause our future citizens can be made sounder men and women and better equipped for the battles of life.

Everything possible should be done to sustain the dairy industry and encourage the farmers to secure dairy cows and learn how to utilize them. That bank deposits are materially larger in dairy sections is indicative of the prosperity the state might enjoy if this industry maintained the high place it deserves. More than any other, it is truly a home industry.

It will be seen from the foregoing that the problem is physiological and economic. The solution of it lies in a concerted effort to increase the production of dairy products through a greater consumption of them. Incidentally, such a return to a simpler diet will result in better economic conditions and improve the public health.

I HEREBY REQUEST the Commissioner of Agriculture to call together a committee of forward looking citizens who will work patriotically and earnestly to bring the per capita consumption of milk and its products up to at least the normal amount consumed in the northern states and to stimulate the dairy industry to the point that, instead of importing, we send out to other states a generous amount of this most valuable good food.

IN TESTIMONY WHEREOF, I have hereunto set my hand, and caused to be affixed the Great Seal of the State of Utah.  
Done at Salt Lake City, the Capitol, this twenty-seventh day of January A. D., 1922.

Attest  
(STATE SEAL)  
H. E. CROCKETT,  
Secretary of State.

## THE SUBNORMAL

"The big problem not only in Utah but in every state of the Union, at present, is that of the physically and mentally subnormal," declared Dr. Heber J. Sears, head of the department of hygiene at the University of Utah, after his return from a two-month trip to California and the Hawaiian Islands.

While on his trip, Dr. Sears spent a large part of his time studying the subnormal, as well as conditions of leprosy and special work of the hygiene of the school child. He spent two weeks in California and a month and a half in the Hawaiian Islands.

Dr. Sears is now working out methods for bringing the subnormal child up to normal and providing educational facilities for those who are either super-normal or sub-normal. Some of the physical defects that are holding the children back in their school work are such diseases as infected tonsils and adenoids and bad eyesight. Special attention must also be paid to the subnormal mentally, he said. They should be given special training by each state.—U. of U. News Bureau.

When Ladies Wear Masks.  
Ladies of quality originally wore masks either to protect their complexions from the burning sun or out of modesty to prevent them from being recognized while out of doors.

## AN ORDINANCE

To Amend Sections 88, 89, 91 and 92 of Chapter XIII of the Revised Ordinances of Lehi City. Passed December 31st, 1919.

Be It Ordained by the City Council of Lehi City:

Section 1. That Sections 88, 89, 91 and 92 of Chapter XIII of the Revised Ordinances of Lehi City be amended to read as follows:

Section 88. Tax. Every person owning or having in charge, or who shall harbor or permit to stay upon his premises any dog or bitch over two months old, within the corporate limits of Lehi City shall pay for the use of the city an annual tax of two dollars for every such dog, and four dollars for every such bitch.

Section 89. Application and payment. Application and payment shall be made to the dog tax collector, who shall, on receipt of the tax prescribed in the preceding section, register the name of the person, and a description of the dog or bitch, and file the same with the city recorder, and give the said person a certificate of registry.

Section 91. Duties of dog tax collector. It shall be the duty of the dog tax collector, as soon as practicable, after the first day of January of each and every year, to take up all dogs found running at large upon which the tax has not been paid as provided in section 88, and to serve a written notice upon the owner thereof, if known, or from reference to the certificate of registry of the previous year, or by reasonable inquiry, they can be ascertained; that unless said tax is paid within twenty-four hours from the time of such notice such dogs will be slain, and in case the owners thereof refuse or neglect to pay the said tax within the said twenty-four hours after receiving such notice the dog tax collector shall immediately slay the same; provided, that the said dog tax collector may give the said owner twenty-four hours notice before taking up such dog, at his option, and that said notice may be given to the owner of such dog personally, or by leaving such a written notice with any person, age 14 years or over, residing at his usual place of abode, and if the owner of any dog so taken up is not known, and can not be ascertained as aforesaid, such dog may be slain immediately, and without any notice whatsoever.

Section 92. Exception. Every dog or bitch running at large not licensed and without the collar marked as above described, and any bitch whether so collared or not, found running at large during her period of salacity may be slain by the marshal, any policeman or the dog tax collector; provided, that no person shall kill or molest any dog or bitch not in her period of salacity, which may follow or be led by any traveler into or through the city while with its owner or keeper, or near the wagon, animals or effects of the same.

Section 2. Any person violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor, and upon conviction thereof shall be punished by a fine of not more than fifty dollars, or by imprisonment in the city jail not more than thirty days, or by both such fine and imprisonment.

Section 3. This ordinance shall

take effect upon the 23rd day of February A. D., 1922.

Passed this 14th day of February A. D., 1922.

JOSEPH S. BROADBENT,  
Mayor.

(Seal)  
I. A. F. Gaisford, Jr., the duly qualified recorder of Lehi City do hereby certify that the above and foregoing is a true and correct copy of an ordinance entitled an

Ordinance to Amend Sections 88, 89, 91 and 92 of Chapter XIII of the Revised Ordinances of Lehi City, as passed by the City Council of Lehi City, February 14th A. D., 1922.

First Publication February 23, 1922.

## AN ORDINANCE

Creating the office of dog tax collector, providing for his appointment, defining his duties and fixing the amount of his bond and the method of payment for service rendered.

Be It Ordained by the City Council of Lehi City:

Section 1. That the office of dog tax collector in and for Lehi City, is hereby created, and the Mayor shall, as soon as practicable after the passage of this ordinance, and on or before the tenth day of January biennially thereafter, appoint by and with the consent of the council a dog tax collector, who shall before assuming such office, give a bond in the penal sum of Two Hundred Dollars with good and sufficient sureties, conditioned for the faithful performance of his duties, which bond shall be approved by the Mayor and filed with the City Recorder.

Section 2. Duties. The dog tax collector shall perform such duties as are or may hereafter be imposed upon him by ordinance in reference to the collection of the dog tax within the limits of Lehi City. He shall monthly make a full and complete report of his official doings to the City Council through the City Recorder, and shall pay into the City Treasury all fees received or collected by him in his official capacity.

Section 3. The salary of such dog tax collector shall be a per cent of the tax collected by him, and shall be fixed by resolution of the City Council.

Section 4. This ordinance shall take effect upon the 23rd day of February, A. D., 1922.

Passed by the City Council of Lehi City this 10th day of February A. D., 1922.

JOSEPH S. BROADBENT,  
Mayor.

(Seal)  
I. A. F. Gaisford, Jr., the duly qualified recorder of Lehi City, do hereby certify that the above and foregoing is a full, true and correct copy of an ordinance creating the office of dog tax collector, defining his duties, fixing the amount of his bond, the time and manner of his appointment, and salary, as passed by the City Council of Lehi City, February 10th, A. D., 1922.

A. F. GAISFORD, JR.,  
City Recorder.

First Publication February 23, 1922.

## AN ORDINANCE TO AMEND

Section 71 of Chapter X of the Revised Ordinances of Lehi City, passed by the City Council, December 31st, A. D., 1919.

Be It Ordained by the City Council of Lehi City:

Section 1. That section 71 of Chapter X of the revised ordinances of Lehi City, be amended to read as follows: Section 71. Fees of sexton. The sexton shall collect for his own use the following fees, payable in advance, and collectable from the parties requiring the service:

For digging a grave four feet or less in length, and interment, \$2.50.

For digging a grave over four feet in length, and interment, \$4.50.

For digging a grave over four feet in length, and in which a vault is to be used, \$5.50.

For making registry, \$0.25.

For furnishing head and foot boards, \$1.00.

For use of lowering device he shall collect for his own use, \$0.50, and for the use of the City, \$0.50.

The sexton shall, at the end of each and every month make a written report to the City Council, giving therein a detailed account of his official doings during such month and deposit with the City treasurer all fees belonging to the City.

Section 2. This ordinance shall take effect February 23rd, A. D., 1922. Passed by the City Council of Lehi City, this 10th day of February, A. D., 1922.

JOSEPH S. BROADBENT,  
Mayor.

(Seal)  
I. A. F. Gaisford, Jr., the duly qualified recorder of Lehi City do hereby certify that the above and foregoing is a full, true and correct copy of an ordinance to Amend Section 71 of Chapter X of the Revised Ordinances of Lehi City, in relation to fees of City Sexton as passed by the City Council of Lehi City, February 10th, A. D., 1922.

A. F. GAISFORD, JR.,  
City Recorder.  
(Attest Seal)  
First Publication February 23, 1922.

## The Symbolic Eagle.

The eagle stood for two things in ancient symbolism. The Greek name for the monarch of the air was a word meaning "rapid motion." The deeply mystic Hebrews, after watching the great bird sitting motionless, contemplating the sun, gave it a name which meant "meditation." In early Christian art the eagle became the symbol of spiritual power, because it was able to soar bravely through the highest planes. The lion was the symbol of human pride and temporal power.

## Education Not Complete.

A man was lamenting his wife's extravagance—but more in sadness than in anger. "Her parents were thrifty folk," he explained. "And they tried to teach her proper budgeting. They never let her go to the store with only a few cents."

Overcoats in China.  
Uster overcoats have become popular with the Chinese in Manchuria. The wealthier class of Chinese always wear long outer garments of silk, which are easily damaged by rain or snow, and the long ulster, besides affording warmth, protects the silk clothing underneath. — Indianapolis News.

## Plutarch Is "Safe."

It must be a relief to Plutarch, wherever he may be, to know that, quite apart from hearsay and anecdote, many of the documents he used have been lost beyond recovery, so that he can no longer be checked up at all points by the scientific historians of the present age.—Wilbur Cross in the Yale Review.

## To Revive a Fire.

Dry orange and lemon peel make splendid fire revivers. Dried peel is especially good for bringing a fire to life in a sick room, where the crackling of a few sticks may soothe the patient for whom sleep is necessary. All peel should be collected and dried in an oven that is cooling off after cooking. Then the peel should be stored in a tin or old string bag until it is required.

## Saturn's Rings.

Professor Pickering declares that the thickness of Saturn's outer ring of the outer ring is only a few miles, that of the inner ring is some forty miles greater, while the thickness of the entire ring is about 1,000 miles.

You Forget  
It's Washday

—when you use  
the wonderful new

AutoMatic  
Electric  
Washer

These are  
a few of its  
new, exclusive features

COPPER TUB—its sloping sides and grooved bottom make for easy draining. It is large, durable, easily kept clean, leak-proof, shrink-proof and rust-proof.

BALL AND SOCKET DRIVE—a new feature that means increased efficiency—you will appreciate this as soon as you see this wonderful washer in action.

ENCLOSED GEARS—giving absolute safety—keeping grit out of gears and prolonging the usefulness of the machine—nothing can catch in the machinery.

STURDY CONSTRUCTION—without being heavy and hard to move about, the new AutoMatic is built like a skyscraper—the copper tub and all metal construction make it unusually durable.

CONVENIENT CONTROL—whoever designed the control of this machine knew exactly the features women will appreciate. Everything is so handy that operation seems absolutely in keeping with its name—AutoMatic.

LARGER WRINGER—large reversible wringer—locks in three positions—it takes the largest pieces without jamming.

These features and other improvements make this 1922 AutoMatic positively the greatest electric washing machine value we have ever encountered at the price.

Won't you come in and let us show you this marvellous new electric washer? You will be delighted with the saving it will effect in your home—a saving of time, labor, clothes and money.

Light Company

"Efficient Public Service"

YOU don't use as much  
of Calumet as you do of  
most other Baking Powders.  
It has more than ordinary  
leavening strength. You  
save about half.

You don't pay a big price for  
Calumet. It's sold at a  
moderate price—that represents  
another saving.

You don't feel uncertain as  
to results. Baking never  
fails—because Calumet never falls  
below the proven standard of "Best  
by Test."

Use only half the amount  
usually required

CALUMET  
BAKING POWDER

"BEST BY TEST"

It possesses the highest quality ever put into a Baking Powder. Contains only such ingredients as have been officially endorsed by United States Food Authorities.

For weeks, for months, it keeps as fresh and full of strength as the day it left the Calumet Factories, the World's Largest, most Sanitary and Modern Baking Powder plants.

Found can of Calumet contains full 16 oz. Some baking powders come in 12 oz. instead of 16 oz. cans. Be sure you get a pound when you want it.

Calumet Gold Cake

Recipe  
Yolks of 8 eggs  
1 1/2 cups of granulated sugar  
1 cup of water  
1 cup of butter  
2 1/2 cups pastry flour  
3 level teaspoons Calumet Baking Powder  
1 tablespoon vanilla  
Mix in the regular way.
